AAES Member Society	Projects Outside Area of Competence	Extending the Public Knowledge of Science/Technology	Serving as an Expert Witness (see also Objectivity and Truthfulness)	Signing/Sealing of Plans
NCEES - National Council of Examiners for Engineering and Surveying (model rules)	B3. Licensees may accept assignments and assume responsibility for coordination of an entire project, provided that each technical segment is signed and sealed by the licensee responsible for preparation of that technical segment.		A4. Licensees shall, to the best of their knowledge, include all relevant and pertinent information in an objective and truthful manner within all professional documents, statements, and testimony.	B2. Licensees shall not affix their signatures or seals to any plans or documents dealing with subject matter in which they lack competence, nor to any such plan or document not prepared under their responsible charge.
AIAA – American Institute of Aeronautics and Astronautics	8a. Engage and cooperate with specialists whenever the employer, client, or professional associate's interests are best served by such an arrangement.	9d. Endeavor to extend the public knowledge of aerospace science and its achievements.	6c. Be objective, truthful, and complete in professional statements, professional reports, or expert testimony.      6d. Express professional opinions only when founded on a background of technical competence.	8b. Do not certify plans or documents dealing with subject matter outside our areas of expertise by virtue of education or experience.
AIChE – American Institute of Chemical Engineers				
AIME - American Institute of Mining, Metallurgical, and Petroleum Engineer AIST – Association for				
Iron & Steel Technology				
SME – Society for Mining, Metallurgy, and Exploration	3a. shall inform the member's employer or client, and make appropriate recommendations on obtaining further advice, if an assignment requires qualifications and experience outside the member's field of competence;	1e. shall contribute to public discussion on scientific and technological matters in the member's area of competence, if the member believes that it would constructively advance the well-being of the community.	6a. (i) shall be objective and accurate in the member's professional reports, statements or testimony before any tribunal and (ii) shall express an opinion only on the basis of adequate knowledge and technical competence in the area.	
SPE – Society of Petroleum Engineers		Consider the consequences of their work and societal issues pertinent to it and seek to extend public understanding of those relationships.		
TMS – The Minerals, Metals, and Materials Society ANS – American Nuclear				
Society	Ol Fariance	0. 5		0.5
ASCE - American Society of Civil Engineers	2b. Engineers may accept an assignment requiring education or experience outside of their own fields of competence, provided their services are restricted to those phases of the project in which they are qualified. All other phases of such project shall be performed by qualified associates, consultants, or employees.	Engineers should endeavor to extend the public knowledge of engineering and sustainable development	3b. Engineers shall be objective and truthful in professional reports, statements, or testimony. They shall include all relevant and pertinent information in such reports, statements, or testimony.      3c. Engineers, when serving as expert witnesses, shall express an engineering opinion only when it is founded upon adequate knowledge of the facts, upon a background of technical competence, and upon honest conviction.	Engineers shall not affix their signatures or seals to any engineering plan or document dealing with subject matter in which they lack competence by virtue of education or experience or to any such plan or document not reviewed or prepared under their supervisory control.
ASEE – American Society for Engineering Education			apen nenedi sonnisioni	
ASME - American Society of Mechanical Engineers	2b. Engineers may accept an assignment requiring education and/or experience outside of their own fields of competence, so long as those aspects and phases of the project are under the supervision and review responsibility of qualified associates, consultants, or employees with responsible charge.	7a. Engineers shall endeavor to extend public knowledge, and to prevent misunderstandings of the achievements of engineering.	7c. Engineers, when serving as expert or technical witnesses before any court, commission, or other tribunal, shall express an engineering opinion only when it is founded on their adequate knowledge of the facts in issue, their background of technical competence in the subject matter, and their belief in the accuracy and propriety of their testimony.	1b. Engineers shall not approve or seal plans and/or specifications that are not of a design safe to the public health and welfare and in conformity with accepted engineering standards.
EWB-USA - Engineers Without Borders-USA		Members will act as an ambassador for EWB-USA, its mission and vision.  [[Vision – Our vision is a world in which our members have enriched global perspectives through the innovative professional educational opportunities that the EWB-USA program provides.]]		
HFES - Human Factors and Ergonomics Society	Article 1, Principle 1 Members limit their practice to those areas of human factors wherein they maintain a competence by virtue of training and/or experience and not extend their endeavors beyond their realm of competence. They enter into additional areas of human factors practice and teaching only after sufficient professional preparation or with proper professional oversight.		Article 5, Principle 1 Members provide testimony objectively and without bias; their testimony is based on credible data and/or scientific principles; they are prepared to identify the merits and limitations of the data and principles as well as their own capability to interpret those data and apply those principles.  Article 5, Principle 2 Members avoid impugning the integrity of other expert witnesses without a factual, reasonable, and substantive basis.	
IEEE - Institute of Electrical and Electronics Engineers	<ol> <li>to maintain and improve our technical competence and to undertake technological tasks for others only if qualified by training or experience, or after full disclosure of pertinent limitations;</li> </ol>	to improve the understanding of technology, its appropriate application, and potential consequences;
