FACTS
A marketing company establishes a Web portal and offers a service to customers whereby customers type in questions on various topics (e.g., law, medicine, accounting, engineering, etc.) and, following the receipt of the responses, which are generally fairly detailed responses, the customer pays the marketing company what the customer believes the service is worth, plus an access fee for the Web portal. Following receipt of the payment, the marketing company passes along the customer payment to the service provider (lawyer, physician, accountant, engineer, etc.). Engineer A, a structural engineer, wants to know if it would be ethical for him to participate in this type of business.

QUESTION
Would it be ethical for Engineer A, a structural engineer, to participate in this type of business?
