1 GENERAL

- a Approved Documents. Subject to the modifications indicated in this Bulletin, the Engineers Joint Contract Documents Committee (EJCDC) developed the following documents which were previously approved by the Rural Utilities Service (RUS) for procurement of professional and construction services by loan and grant recipients:
- (1) Agreement between Owner and Engineer for Professional Services (EJCDC No. E-500, 2014 Edition)
 - (2) Agreement between Owner and Contractor for Construction Contract (Stipulated Price) (EJCDC No. C-520 (Rev 1), 2013 Edition)
 - (3) Standard General Conditions of the Construction Contract (EJCDC No. C-700 (Rev 1), 2013 Edition)
- b Associated Documents. In addition to items 2 and 3, there are also associated construction contract documents, some of which are available through EJCDC and its member organizations and some of which are to be developed by the engineer based on instructions in this Bulletin.
- c Alternative Documents. Recipients not wishing to use EJCDC documents may submit alternative documents for review and consideration. Such documents must be modified to meet all federal and state requirements and must be approved for each project by the Agency and the USDA Office of General Counsel (OGC). When modified as described in this Bulletin, the EJCDC documents listed above have been determined to meet such requirements and generally do not require OGC approval.

2 AVAILABILITY

The EJCDC documents are available online from any of the sponsoring organizations: the National Society of Professional Engineers (www.nspe.org); American Council of Engineering Companies (www.acec.org); and American Society of Civil Engineers (www.asce.org); or directly from EJCDC (www.ejcdc.org). EJCDC documents are proprietary and include a license agreement. RUS offices will not distribute EJCDC documents for any purpose other than training or to illustrate the appropriate use of the integrated set of documents on RUS financially assisted projects.

3 PRIOR VERSIONS OF EJCDC DOCUMENTS

- a Project-specific EJCDC documents approved prior to the effective date of this Bulletin are still considered approved. This Bulletin does not retroactively change the status of an individual document already approved.
- b Approval of Previous Engineering Agreements. The approval of a previous edition EJCDC engineering agreement must be used with the most current construction series documents.

- c Phase Out of Previous Editions. The most recent EJCDC documents should be used for WWD projects.

4 PURPOSE

- a Use by Staff. This Bulletin is to be used by Rural Development staff in providing information and guidance to applicants and professional consultants in the development of agreements that are legally sufficient, ensure appropriate services are provided for a reasonable fee, and expedite the achievement of the applicant's goals.
- b Assembly of Documents. This Bulletin consists of exhibits with required modifications that when combined with the standard EJCDC documents and appropriate drawings, specifications and other required documents, create a complete set of engineering and construction contracts for use with WWD projects. However, the documents in these exhibits are not to be used as a substitute for the careful evaluation of the requirements for a project. The owner, their engineer, and legal counsel, with RD consultation, must determine the best approach for a successful outcome.

5 OWNER RESPONSIBILITY

- a Verify Bulletin is Current. Before an applicant or consultant proceeds with the development of an engineering agreement or a set of construction contract documents, they should contact the Rural Development State Office to verify they have the most current information specific to the type of project and state or other jurisdiction where the project is located.
- b Contractual and Administrative Issues. The Owner is responsible for the settlement of all contractual and administrative issues arising out of procurement entered into in support of a loan or grant. These include, but are not limited to: source evaluation; protests; disputes; and claims. Matters concerning violations of laws are to be referred to the applicable local, state, or Federal authority.
- c Modifications. It is RUS policy that applicants use the EJCDC documents with minimal modification. However, RUS recognizes each project is unique and that modifications may be required to satisfy project requirements or state statutes. If changes must be made to the standard documents to address project-specific issues, they must be made via bold type additions and deletions with strike-outs or addenda showing all revisions. Because the EJCDC documents are fully integrated, when making a modification in one document applicants must ensure that appropriate modifications are made in all affected documents.

6 USE OF EXHIBITS

The following explains the purpose of each Exhibit to this Bulletin.

- a **THE ENGINEERING AGREEMENT - MODIFICATIONS FOR RUS FUNDED PROJECTS:** This exhibit explains the use of the EJCDC Owner – Engineer Agreement for RUS funded projects and includes instructions for

The exhibit consists of a checklist of changes that must be made to the standard EJCDC documents to ensure they comply with Agency requirements. The actual changes must be made using either bold type additions and deletions with strike-outs or addenda showing all revisions.
- c RUS CERTIFICATION PAGE: This exhibit consists of a certification, to be signed by the engineer and owner, stating the fees for engineering services and certifying that the required changes were made to the Owner – Engineer Agreement. This certification is to be attached as the last page of the Owner-Engineer Agreement.
- d THE CONSTRUCTION CONTRACT AND BIDDING DOCUMENTS – MODIFICATIONS FOR RUS FUNDED PROJECTS: This exhibit explains the use of the EJCDC construction contract and bidding documents. It includes a table of all the required documents and instruction for modification and review of these documents.

The first is a certificate signed by the owner’s attorney and the second is the State Engineer’s concurrence in the executed construction contract. This certificate is to be attached after the Owner-Contractor Agreement (C-520 (Rev 1) (2013)) in the construction contract.

- j ENGINEER'S CERTIFICATION OF FINAL PLANS AND SPECIFICATIONS:
This exhibit is a certification by the engineer to the owner and RD that the plans and specifications have been completed in accordance with RUS requirements. This certificate is to be provided to the Agency with the final plans and specifications prior to advertisement for bids.

ARTICLE 11 – SUBSTITUTE AND “OR-EQUAL” ITEMS

11.01 The Contract for the Work, if awarded, will be on the basis of materials and equipment specified or described in the Bidding Documents, and those “or-equal” or substitute materials and equipment subsequently approved by Engineer prior to the submittal of Bids and identified by Addendum. No item of material or equipment will be considered by Engineer as an “or-equal” or substitute unless written request for approval has been submitted by Bidder and has been received by Engineer at least 15 days prior to the date for receipt of Bids in the case of a proposed substitute and 5 days prior in the case of a proposed “or-equal.” Each such request shall comply with the requirements of Paragraphs 7.04 and 7.05 of the General Conditions. The burden of proof of the merit of the proposed item is upon Bidder. Engineer's decision of approval or disapproval of a proposed item will be final. If Engineer approves any such proposed item, such approval will be set forth in an Addendum issued to all prospective Bidders. Bidders shall not rely upon approvals made in any other manner. Substitutes and “or-equal” materials and equipment may be proposed by Contractor in accordance with Paragraphs 7.04 and 7.05 of the General Conditions after the Effective Date of the Contract.

11.02 All prices that Bidder sets forth in its Bid shall be based on the presumption that the Contractor will furnish the materials and equipment specified or described in the Bidding Documents, as supplemented by Addenda. Any assumptions regarding the possibility of post-Bid approvals of “or-equal” or substitution requests are made at Bidder's sole risk.

11.03 If an award is made, Contractor shall be allowed to submit proposed substitutes and “or-equals” in accordance with the General Conditions.

ENGINEER'S DEVELOPMENT OF SUPPLEMENTARY CONDITIONS

The Engineer will develop Supplementary Conditions using the guidance from the Guide to the Preparation of Supplementary Conditions (EJCDC C-800 (Rev 1), 2013), instructions provided in this Bulletin, and by adding other project-specific supplementary conditions as required for the project.

The Supplementary Conditions document that is developed for a specific Project is the contractual means by which the Standard General Conditions (EJCDC C-700 (Rev 1), 2013) are modified and supplemented for the Project. The references in the Supplementary Conditions items below (and in EJCDC C-800 (Rev 1) (2013) as published) to adding, amending, or supplementing are referring to the paragraphs of C-700 (Rev 1) (2013). Thus the first item below, SC-1.01.A.8, is a contractual provision that adds the stated language ("The Change Order form to be used etc.") to Paragraph 1.01.A.8 of C-700 (Rev 1) (2013).

As in C-800 (Rev 1) (2013) itself, the actual Supplementary Conditions (contract terms) are shown in bold as modified below. Also included below are a few Guidance Notes to assist in development of the Project-specific Supplementary Conditions document. The Guidance Notes are not in bold.

The Supplementary Conditions items that follow are mandatory for each specific Project, unless noted otherwise. In most cases they are new (supplemental) SC items; in a few cases, they replace or expand on a Supplementary Condition item that is in EJCDC C-800 (Rev 1) (2013), as published.

In addition to including the items that follow in the Supplementary Conditions document for the specific Project, the Engineer (in cooperation with the Owner) also should follow the guidance of EJCDC C-800 (Rev 1) (2013), as published, to develop other SC items for inclusion in the Project-specific Supplementary Conditions document; as the published guidance indicates, some of the published SC items are mandatory, or require additional Project-specific input, such as insurance coverage limits. Other SC items in C-800 (Rev 1) (2013) as published are optional but in many cases will be useful for the specific Project.

Include the following RUS-mandated Supplementary Conditions (or follow the Guidance Notes provided) in the Supplementary Conditions document for the specific Project:

- SC 1.01.A.8 Add the following language at the end of last sentence of Paragraph 1.01.A.8:

The Change Order form to be used on this Project is EJCDC C-941. Agency approval is required before Change Orders are effective.

The Rural Utilities Service programs are administered through the USDA Rural Development offices; therefore, the Agency for these documents is USDA Rural Development.

- SC 2.02.A Amend the first sentence of Paragraph 2.02.A. to read as follows:

Owner shall furnish to Contractor five copies of the Contract Documents (including one fully executed counterpart of the Agreement), and one copy in electronic portable document format (PDF).

- SC- 2.06.B Delete Paragraph 2.06.B and replace it with the term **[Deleted]**.

Guidance Note, continued: If the use of electronic data, electronic media, or electronic project monitoring is planned for this Project, then the parties may develop a protocol with the assistance of the Engineer or Consensus DOCS form 200.2 may be added to the Construction Contract as an Exhibit. If Consensus DOCS form 200.2 will be used, then include the following Supplementary Condition:
