Please explain.		We look toward significant growth	We are interested in growing our book period	Beazley is an industry leader in the large risk sector. We insure over 50% of the top 50 firm on the ENR. Beazley also writes thousands of firms in the mid-market and small risk segments. We will continue to grow in the segments where it makes underwriting sense.	Our focus reamins on the better risks in the better classes allowing us to continue to offer a stable market with competitive premiums unburdened by severe disciplines.		We are looking to expand our underwriting guidelines and hope to write more business in states where we are currently under-represented.			Grow prudently.	We will continue to add states to our approved list by additional state filings	We insure about 1bb in professional service revenues annually, with about 50% and 25%, being generated from geoscience exposures and pure civil exposures, respectively. Since our reputation has been built by insuring geoscience expsoures(primarily geotechnical engineering expsoures), many incorrectly believe that Terra only insures geotechnical exposures. Therefore, we plan to extend our reach and expand our market share by targeting pure civil engineering exposures.	We are looking to gain market share in small and medium size design, environmental and miscellaneous design firms.		XL Insurance is looking to increase its market share across the board. Particular emphasis will be placed on the small and medium firm programs, mechanical and civil engineers. Also Forensic Engineers and Landscape Architects.	Zurich plans to grow this business subject to rate adequacy.

Question 11 - Please explain any restrictions you noted in Question 10:

Open-Ended Response			Cannot write in LA & Orange Counties in CA or Dade & Broward counties in FL		Please see attached guidelines	We consider firms up to \$10,000,000 in gross revenue. We are not writing firms in Alaska. We are conservative on residential exposures. We accept firms with up to 25% residential projects. We offer Specific Project Excess for only one project or client on each policy	We do not accept geotechnical engineers, heavy industrial projects or firms located outside of the United States			claims history, nature of services, clients are considered as well.		We try to minimize the exposure emanating from residential work of all kinds. Therefore, for firms with more than 35% of their fees generated from residential exposures, we take a more detailed underwriting approach, ask more questions etc.	We write design firms with revenues up to \$25 million in all states except VT, LA & HI and do not provided geotechnical or petrochemical services.	We are not accepting firms with over \$250 million in billings. Applicants must have a licensed architect or engineer in management, an address in the US, PR or VI and agree to use some sort of written contract on all projects.

Question 13 - Explain all "other claims" noted in Question 12:

Open-Ended Response			Asbestos exclusion prior to 1990 New wording coming out could affect others	Asbestos is excluded for acts prior to 1990 but covered going forward. We have also removed the exclusion for small firms.				Policy forms have restrictions common to the marketplace for example claims caused by intentional acts.		nothing unusual built into our text. We reserve the right to exclude but it is not embodied in policy text.		Mold coverage can be purchased, and the xclusion removed after a thorough underwriting of the exposure	Claims are underwritten on an individual basis		12 a The policy does not apply to any claim based upon or arising out of the INSURED'S specification of any asbestos material or product, in any form, (a) prior to 1990, for installation in the United States of America, or (b) anytime, for installation anywhere else in the world

Question 15 - If your answer to Question 14 was "Yes," please explain the general criteria you apply to such policies.

Open-Ended Response	Clean loss history, less than 5m in fees		Fees under 750,000 for A&E or under 7,500,000 construction values for D&C firm; consistent growth pattern, not a start-up and not distressed	For firms under \$3m in fee - no structural or soils engineers.	Offered on renewal policies only. Risk must be consistent as respects billings, project types, for example.	Offer two year policies to firms in operation at least three years with annual billings below \$1,000,000	No structural engineers, firms with annual revenues of \$1,000,000 or less, reasonable claims history	Only in very rare circumstances do we provide multi-year policies					We offer a two-year policy to firms with billings up to \$1,000,000 and meet our underwriting criteria.	3 year policies are available to our Small Firms Pogram and our Miscellaneous classes of small business with revenues under \$250K. A two year program is available to qualifying firms with revenues up to \$1 million.	Firms in our small firm program may purchase multi-year policies.	Firms under \$500,000 in annual fees. Question 20 - If you answered "Yes" to any of the choices in Question 19, please explain.

Open-Ended Response	The Retroactive date is able to be amended on the dec page	All such decisions are made on an individual account basis, based upon underwriter judgment.	We will consider prior acts on any insured			We will match the expiring policy retroactive coverage. We will provide predecessor firm coverage if the firm meets our policy definition	Our policies always have a retroactive date. Most retroactive dates are the inception date of the firm, or of any predecessor firm that is included.	Usual practice is to honor the retro date on current policy. If the policy or limit has not been carried before, we would restrict coverage for prior acts.	Underwriting consideration will be made on the merits of the particular account. This may include prior acts for projects, individuals, and/or firms.	Typically, we will match an expiring carrier's retroactive date.	We will match prior carrier's retroactive date if continuity of coverage has been maintained.	generally, we provide prior acts coverage, but in some cases we may restrict the retro coverage based on an underwriting evaluation that includes a review of previous loss experience.	We will provide full prior acts coverage to firms that have current coverage. Predecessor firms are scheduled on the policy. Some situations require the use of a retroactive date.	If a predecessor firm is named (19b). Small Firms, Landscape Architects and Surveyors must carry PL for at least one year before they are eligible for prior acts coverage. All other programs require at least two years of coverage with any carrier.	Prior acts coverage is available with prior carriers retroactive date when the insured has maintained coniuous coverage. Other requests for prior acts coverage are subject to underwriter approval.	We match expiring prior acts dates. We provide coverage for predecessor firm exposure.

Question 23 - Do you consult or obtain feedback from user groups or professional societies prior to making policy and/or rate changes?

If Yes, please explain	Our policy form was sent to several industries experts prior to refileing	No	will question brokers for what they see is needed	We seek input from our broker partners, industry groups i.e. ACEC, AIA etc, as well as our insureds.	No	No	We obtain feedback from the independent agents that represent our product.	We have our own user group comprised of a dozen of our long-term, loyal customers that meets twice a year. We also attend annual meetings of major professional societies and when possible serve on their subcommittees.	We encourage our brokers and long-standing policyholders to provide feedback and suggestions to further enhance our program and market presence.	No	annual meetings with the risk management committees of the various professional associations	All our firms are required to be peer reviewed. We pay 100% of all out of pocket peer review costs. Sometimes the peer review report will yield lower rates	We typically solicit feedback from our agents	We are commended by the AIA and NSPE/PEPP and consult with them and provide periodic updates to them regarding our programs and rates.	XL Insurance consults with the Design Professional Risk Control Group (DPRCG) at least twice a year regarding policy issues and trends. Additionally, we seek the feedback from the Professional Liability Agents Network (PLAN) on a continual basis regarding coverages and rate issues.	Specialist agents, brokers, and wholesalers.

Question 68 - What is your company's practice regarding issuing a "reservation of rights" letter?																
Open-Ended Response	Reservation of Right are issued when appropriate	Rarely used: Never on a blanket basis: Only when circumstances require one.			When a claim or circumstance is reported, it is carrier's general practice to initially reserve the insured's rights as well as the carrier's rights.		A reservation of rights letter is sent whenever there is an allegation that falls outside of the coverage provided.	If a reservation of rights letter is required, we first discuss it with our Insured and follow up with the formal letter within 30 days.	Generally, Liberty's position is not to issue ROR letters unless there is a reponsible and prudent business reason for doing so.	We will issue general reservation of rights letters and more specific ones if deemed necessary.		We issue such RORs if something in the allegation against our insured is excluded by the policy (exclusions and retroactive coverage issues	We only issue a reservation of rights letter when there is a real coverage issue identified.	We give broad form coverage and partner with our insured and an individual case by case anylisis is done when a reservation of rights letter is issued.	XL Insurance issues reservation of rights letters only on claims, which fall outside the purview of coverage and, if found to be true or valid, would not be covered under the policy. Such reservation of rights letters do not imply that any of the allegations are true or valid, but are provided to advise the insured of the potential coverage ramifications and their rights and the rights of the Company pertaining to same. All such reservation of rights are discussed with the insured and their agent before the issuance of a letter and the insured is requested to challenge any reservation of rights they believe may have been made be in error.	ROR is an obligation to inform the insured as early as possible that certain elements of a claim may be outside of the policy.

Question 85 - Please provide the estimated percentage of claims driven by the following factors (omit the % sign in your responses).

Technical errors					Not available			PROPRIETARY			proprietary	37	30	TBD	30	
Project management (including contractual terms)											proprietary	1	25	TBD	26	
Poor communication											proprietary	22	20	TBD	24	
Poor documentation											proprietary	2	25	TBD	5	
Other		unknown								80		Nuisance = 16, recommendations not followed 14, Breach of scope, schedule or budget 4%, other 4%		TBD	15	

Question 86 - If you included "Other" in your response to Question 85, please explain.

Open-Ended Response		We do not handle claims, nor compile claims statistics as described above and below.		We do not classify claims in this way. We would be happy to provide claims statistics to our brokers and insureds upon request.						Probably only one in five has truly professional negligence (breach of the professional standard of care). Most of the time, it is other things going bad and our AE clients being dragged into a problem not of their doing.		See discussion above			XL Insurance research finds that in over 70% of claims, non-technical issues either cause or significantly contribute to the severity of a claim.

Question 88 - If you included "Other" in your responses to Question 87, please explain.

Open-Ended Response				We would be happy to provide claims statistics to our brokers and insureds upon request.													Note: the responses above relate only to claims where dollars are expended by the insurance company and do not include claims that close at zero to the insurance company. We categorize all claims reported in broad categories like type site, type service, causal factor, type client, etc. so the responses above attempt to answer your categories using a combination of all of our claim data reporting fields

Question 91 - If you wish to provide comments on this survey, please do so in the space below.

Open-Ended Response		Thank you for asking!	Good survey - some items not "yes" or "no" - but maybe or sometimes							Blank responses are due to our viewing as proprietary information.		We currently making changes to our policy and will provide a copy when such work is completed. As pertains to questions 26, as a risk retention group, we are authorized and approved to write our business in all 50 states, and we do not fit within the categories of Admitted or surplus lines. But we are approved and authorized to write our business in all 50 states, where we pay premium taxes defined by each state's insurance regulations.

Question 92 - As we do each year, we will be supplementing this survey with face-to-face interviews with invited carriers. We will accommodate as many interview requests as possible. This year, the interviews will take place on October 2, 2008, in Chicago.

By participating in the interviews, you will have the opportunity to expand on your survey responses, as well as provide your perspective on changes in the PLI industry. The partnering organizations have customarily published separate articles and press releases relating to the interviews. If your company is interested in taking part in the October interviews, please indicate whether you would prefer a morning or an afternoon time-slot.

If Yes, I am willing to participate in the face-to-face interviews on 10/2/08 in Chicago, IL., please indicate whether AM or PM is preferred.	AM Preferred	AM Preferred	AM Preferred	PM Preferred	AM Preferred		PM Preferred	PM Preferred	PM Preferred				AM Preferred		AM Preferred	AM Preferred
