

NSPE New Professional Engineer of the Year Award

This award recognizes a young NSPE member who has made outstanding contributions to the Engineering Profession and the community during the early years of one's career.

Nomination Process/Method of Selection

Any licensed Professional Engineer (PE), Engineering Intern (EI), or Engineer-in-Training (EIT) and NSPE member in good standing, who is 35 years of age or younger as of January first in the year the award is to be presented, is eligible for nomination. The nomination shall be made either by an NSPE-affiliated state society or an individual NSPE member in good standing who holds National Membership only. Only one submission per state society or individual member shall be allowed.

Current officers and directors of NSPE are not eligible for nomination.

Subordinate entities of NSPE (e.g. Interest Groups, Committees, Task Forces, etc.) or affiliated entities Education Foundation, Engineers Week Foundation, etc.) are encouraged to promulgate nominations of qualified candidates.

The NSPE Honor Awards Committee makes the selection of the recipient based on the following criteria:

- **Collegiate educational and extra-curricular achievements**
- **Professional society activities, positions held, and achievements**
- **Technical society activities, positions held, and achievements**
- **Community and humanitarian activities, positions held, and achievements**
- **Career positions and responsibilities after completion of Baccalaureate degree**
- **Engineering career achievements**

Criteria and requirements are detailed on the following pages.

Nomination Format

Complete nomination packets shall not exceed 10 8-1/2" by 11" pages including letters of recommendation. Submissions must include the attached Nomination Form as the cover page, including the nominee's signature. This form and all accompanying sheets – except for supporting documentation -- shall be typed in 11-point Arial font. Supporting pages shall identify to which of the seven criteria categories each applies. Lastly, please provide a statement of 500 words or less, which is suitable to be used as a press release that provides an overview of the nominee's achievements and summarizes why the nominee is deserving of this award. Provide at least two media outlets to which this statement should be sent if the nominee is selected for this award.

Deadline and Submission

Nomination packets must be e-mailed no later than January 31 to awards@nspe.org in the year for which the nomination applies. Nominations will not be carried forward to a subsequent year.

New Professional Engineer of the Year Award

Criteria

Minimum Requirements

The nominee shall be 35 years of age or younger as of January first in the year for which the award is to be presented.

Although registration as an EI/EIT by the nominee is satisfactory, licensure as a Professional Engineer in one of the jurisdictions of the 53 NSPE-affiliated State Societies will be given greater consideration.

The nominee must be a NSPE member in good standing.

A nominee who is a member of a state society must be nominated by the state society in which the nominee holds membership. The state society needs to submit an endorsement letter on the member's behalf.

For an At-Large Member, or any nominee submitted by an individual NSPE member, the nomination package must include an endorsement from one NSPE Fellow Member who resides in the same state in which the nominee resides unless the nominator is an NSPE Fellow in which case no additional endorsement is required.

Evaluation Criteria

The Honor Awards Committee members will evaluate the nominee based on the seven criteria categories and score each with a maximum amount of points based on the following table.

<u>Criteria Category</u>	<u>Maximum Points</u>
Collegiate educational and extra-curricular achievements	10
Professional society activities, positions held, and achievements	20
Technical society activities, positions held, and achievements	15
Community and humanitarian activities, positions held, and achievements	15
Career positions after completion of Baccalaureate degree	15
Engineering career achievements	25
Total for all categories	100

NSPE New Professional Engineer of the Year Award

Basis for Nomination

A. Collegiate educational and extra-curricular achievements

Include undergraduate and post-graduate degree(s) with institution, major(s), and date for each degree; honorary societies; scholastic awards; organizations in which the nominee participated, and any other activities deemed relevant to this category.

B. Professional society activities, positions held, and achievements

These should include any non-technical organizations (e.g. NSPE, SWE, NSBE, and SHPE) at the national, state, and local level. Include affiliations, positions held, awards received, notable achievement, etc.

C. Technical society activities, positions held, and achievements

Representative organizations in this category include the founding societies (e.g. ASCE, ASME, and IEEE) and any others for which the nominee's technical prowess is applicable. Include affiliations, positions held, awards received, notable achievement, etc.

D. Community and humanitarian activities, positions held, and achievements

This category includes a wide swath of organizational activities, including service organizations, scouting, governmental service, religious organizations, and others intended to assist people and/or improve quality of life. Include affiliations, positions held, awards received, and noteworthy achievements with explanation of each's significance in the particular activity, etc.

E. Career positions after completion of Baccalaureate degree

Include each employer, location, dates of employment. Describe nominee's position(s) with each employer and your responsibilities, e.g. number of persons supervised, size of budget managed, and types of duties.

F. Engineering career achievements

Describe nominee's accomplishments in each employment experience and the significance of them. Include customer/client feedback that reflects nominee's value. Provide information about patents either awarded or pending, awards for work performed or results achieved, and any other information that enhances the nominee's worthiness for this award. Note this is the most significant category for scoring.
