85% of NSPE members are involved in purchases of products and services.
NSPE members are the elite of the engineering profession. Much like attorneys and doctors, they have passed the rigorous education, experience, and examination requirements necessary to become licensed. They work in private practice, construction, industry, government, and on university campuses...and they buy the products and services that keep an engineering office running.

Whether your company offers computer hardware and software, technical and office products, professional development and education, or other contract services, it’s never been easier to find the decision-makers among engineers.

Offering an integrated marketing platform of print, web, e-newsletter, and conference sponsorship opportunities, NSPE provides customized packages to reach today’s professional engineer.
PE 2022 EDITORIAL CALENDAR

Winter

Professional Liability
NSPE compiles results of an annual survey of professional liability insurance providers to help firm owners and professional engineers navigate the issues of liability, risk management, and loss prevention. A directory of insurance providers is also included.

ABOUT NSPE  NSPE is the only national organization entirely committed to addressing the professional concerns of licensed PEs across all disciplines. As the champion of the PE license, NSPE ensures a constant focus on the public health, safety, and welfare, supporting the commitments of professional engineers nationwide. Serving as the profession’s most respected ethics authority, NSPE gives voice to the practice of ethical engineering and provides the tools PEs need to keep current in the industry and advance their careers.

NSPE’s 26,000+ members are licensed professional engineers (PEs), engineers in training (EITs), engineering interns (Els), and students enrolled full-time in ABET-accredited engineering programs or full-time graduate level engineering programs, from the 50 states as well as the District of Columbia, Guam, and Puerto Rico.

*NSPE has implemented a responsive design on the nspe.org site. This will give the user a better experience on the website no matter what device they are on: computer, tablet, or smartphone. In order for them to display responsively on a tablet and smartphone, we’ll need additional banners:

- Tablet: 468 x 60 Full Banner
- Widescreen: 728 x 90 Full Banner
- Smartphone: 300 x 50 Smartphone Static Banner
NSPE SPONSORSHIP OPPORTUNITIES

NSPE’s sponsorship opportunities will connect your company or organization to a distinguished group of professional engineers dedicated to protecting the public.

Choose from a variety of sponsorship levels and benefit packages.

**Federal Engineer of the Year Award:** This annual event recognizes federal engineers’ commitment to safety, innovation, and service and attracts participation from more than a dozen federal agencies across the country. The awards luncheon (February 24, 2022) at the National Press Club in Washington, DC, is attended by 150 federal agency representatives and engineers in government.

**Professional Engineers Conference:** More than 500 PEs, speakers, and industry experts from across the country attend this annual conference and meeting focused on professional development and networking. PECon attendees are among the most active, engaged engineers in the country, many of whom serve in leadership positions with their firms and in their state societies. (August 1–3, 2022, Philadelphia)

**PE Day:** This one-day virtual event (August 3, 2022) celebrates licensed professional engineers and raises awareness about the importance of licensure. Place your brand in front of more than 3 million followers around the globe engaged with the dedicated hashtag, #LicensedPEDay.
