

2019 NSPE MEDIA GUIDE Reach the Nation's Top Licensed Professional Engineers

85%

of NSPE members are involved in purchases of products and services

CONNECT WITH OUR TARGETED AUDIENCE FOR BETTER ROI

NSPE members are the elite of the engineering profession. Much like attorneys and doctors, they have passed the rigorous education, experience, and examination requirements necessary to become licensed. They work in private practice, construction, industry, government, and on university campuses...and they buy the products and services that keep an engineering office running.

Whether your company offers computer hardware and software, technical and office products, professional development and education, or other contract services, it's never been easier to find the decision-makers among engineers.

Offering an integrated marketing platform of print, web, e-newsletter, and conference sponsorship opportunities, NSPE provides customized packages to reach today's professional engineer.

THIS CALENDAR IS SUBJECT TO CHANGE.

PE 2019 EDITORIAL CALENDAR

January/February

Professional Liability

NSPE compiles results of an annual survey of professional liability insurance providers to help firm owners and professional engineers navigate the issues of liability, risk management, and loss prevention. A directory of insurance providers is also included.

Space Close: December 3, 2018

Ad Files Due: December 6, 2018

March/April

Leadership

This feature will address the knowledge and skills that PEs should acquire to be top performers in the profession or guide the next generation of leaders.

Space Close: January 30, 2019

Ad Files Due: February 4, 2019

May/June

Legal Briefing

The practice of engineering is affected by court decisions, legislation, and regulations. This feature will provide a “briefing” on a legal issue of importance to PEs.

Space Close: April 5, 2019

Ad Files Due: April 10, 2019

July/August

Emerging Technologies

The work of engineers affects the daily lives of people in so many ways. But to turn their ideas into reality, PEs need to stay on top of the latest technology advancements.

Space Close: June 7, 2019

Ad Files Due: June 12, 2019

September/October

Ethics

This feature will examine ethics issues, topics, or programs that help professional engineers to practice with integrity and protect the public.

Space Close: August 7, 2019

Ad Files Due: August 12, 2019

November/December

Career Development

How can engineers make the most of their careers as society’s problem-solvers? Gain insight on programs and strategies that are providing effective tools to enhance a professional engineer’s career growth.

Space Close: October 7, 2019

Ad Files Due: October 10, 2019

ABOUT NSPE NSPE is the only national organization entirely committed to addressing the professional concerns of licensed PEs across all disciplines. As the champion of the PE license, NSPE ensures a constant focus on the public health, safety, and welfare, supporting the commitments of professional engineers nationwide. Serving as the profession's most respected ethics authority, NSPE gives voice to the practice of ethical engineering and provides the tools PEs need to keep current in the industry and advance their careers.

NSPE comprises 30,000+ licensed professional engineers (PEs), engineers in training (EITs), engineering interns (EIs), and students enrolled full-time in ABET-accredited engineering programs or full-time graduate level engineering programs, from the 50 states as well as the District of Columbia, Guam, and Puerto Rico.

NSPE SPONSORSHIP OPPORTUNITIES

NSPE's sponsorship opportunities will connect your company or organization to a distinguished group of professional engineers dedicated to protecting the public.

Choose from a variety of sponsorship levels and benefit packages.

Federal Engineer of the Year Award: This annual competition recognizes federal engineers' commitment to innovation and service and attracts participation from more than a dozen federal agencies across the country. The awards luncheon (February 22, 2019) is attended by 150 federal agency representatives and engineers in government.

Professional Engineers Conference: More than 500 PEs, speakers, and industry experts from across the country attend this annual conference and meeting focused on professional development and networking. (July 17-21, Kansas City, MO)

PE Day: This one-day virtual event (August 7, 2019) celebrates licensed PEs and raises awareness about the importance of licensure. Place your brand in front of more than 3 million followers around the globe engaged with the dedicated hashtag, #LicensedPEDay.

Webinars: Held 3-4 times per month, NSPE webinars attract members and nonmembers with courses (1 PDH) on ethics, young engineers' issues, technical competencies, and leadership development.
